Eliminate Weeds. Reduce Herbicide

Yetter farm equipment

Yetter Rotary Hoes break up the soil for better aeration water infiltration and quicker emergence

- Cuts herbicide costs while aggressively uprooting weeds
- Mixes herbicide into weed root zone to improve its effectiveness
- Meets compliance by bringing residue back to the surface
- Patented one wheel per arm design to follow soil contour
- Offset, staggered arm design for optimum residue flow
- Each 21" wheel turns on sealed gothic arch bearings

Make compliance profitable. See us today, your single source for all your equipment and service needs.

NO-TILL SOLUTIONS.

PEOPLE • PRODUCT • PERFORMANCE

cut your fertilizer costs without reducing your yields

NO-TILL SOLUTIONS.

PEOPLE • PRODUCT • PERFORMANCE

move only surface residue without moving the soil

No matter what your tillage practice the proper placement of fertilizer is crucial. That's why Yetter offers three types of Fertilizer Coulters to place fertilizer right where you need it. They're the perfect set up for cutting your fertilizer costs without reducing your yields.

Make compliance profitable. See a Yetter dealer today your single source for conservation tillage equipment.

Yetter for land's sake

The Yetter Residue Manager removes only the residue without digging into the soil. Its adjustable 13 steel wheels with 16 fingers easily push heavy residue away from in front of the planter. This results in a more uniform planting depth and improved seed trench closing for better emergence and quicker stands.

Make compliance profitable. See a Yetter dealer today your single source for conservation tillage equipment.
