

HERD Always An Energy Saver...

MODEL 750—750 LB. CAP
Lid & hydraulic controls optional

...SAVES FUEL & MAN HOURS

HERD has what you need to cut your energy use. Both fuel and physical energy are saved with HERD broadcasters. HERD also has a mini-hopper so you can spread both small seeds, as clover and alfalfa, and oats at the same time...doing two jobs in one fast trip and with no strips. Cover up to 40 acres per hour. With HERD's ability to center the spread, you can use HERD broadcasters for all types of seeds, fertilizers, herbicides, and insecticides, with an even pattern guaranteed.

HERD has 7 sizes to choose from... from 77 lbs to 2440 lbs. or 1.2 bu. to 32 bu. .3-pt., electric or V-belt driven, so you can get the one of your choice. The GT-77 (shown right) has been promoted from a garden tractor/seeder (shown) to a farm seeder. Many are putting this seeder on ATVs, 3-wheel Motor Bikes with flotation tires, and an assortment of vehicles, to get the seeding done when ground is wet and soft. Why not have fun while doing your seeding?

M-96 3 PT.
3 bu cap.

HERD SEEDER CO., INC.

MECHANICAL TRANSPLANTER MODEL 1000

For The Grower That Demands The "VERY FINEST"

The High Performance Model 1000

has increased planting speeds 20 to 30%.

OUR PATENTED FLOAT WHEEL DIRECT DRIVE

SYSTEM is the only one of its kind available. This ground driven float wheel moves straight up and down (5-6") at two flotation points. This patented double floating action maintains correct ground contact at all times for both the drive wheel and rear packing wheels letting the units float independently no matter how many rows. No weight of any hitch, toolbar, or water tank is resting on the drive wheel to compact the soil. The wheel just smooths, firms and ideally prepares the soil providing accurate plant placement, proper depth control, and positive spacings from 6" and up in all soil conditions.

Optional Non-Stick Shoes

Double Disc Poly Shoe

WE BUILD AUGERS... AND WE REPAIR D'EM RIGHT.

Westfield grain augers are built right from the ground up. They're designed and engineered to be tough, durable and dependable - by people whose only business is augers. Westfield offers a choice of several electric gas or PTO drive styles (SD Model shown) in lengths from 26 to 71 feet and diameters of 6, 7, 8 and 10 inches.

Our new MK Series in 8, 10 and 13 inch models feature a simple PTO driven internal mechanical drive - powering both the main auger and intake swing hopper - plus a labour-saving hydraulic lift - to make light work of grain handling chores.

When you buy Westfield, you know you're getting the best auger your money can buy.

See your Westfield dealer today for an auger built just right for you.
