State Offers Rabies Education Seminar In Johnstown

HARRISBURG (Dauphin Co.)—An increasingly high number of rabies cases has prompted state and local officials to organize a seminar concerning rabies prevention, control and treatment on Tuesday, April 18 in Johnstown.

The seminar is scheduled for 10:30 a.m. to 2:30 p.m. at the Johnstown Campus of the University of Pittsburgh in the Living/Learning Center. It will bring together officials from the state Health and Agriculture departments, Cambria County Humane Society and Pennsylvania Game Commission in an effort to share information about the disease with the community.

Dr. Karen Martin, a veterinary medical field officer in the Agriculture Department's Altoona office, and David Vore, a livestock disease control technician, will participate in the seminar. "As contact with animals increases in the spring and summer months, the concern for rabies is great," Martin said. "We all benefit from a seminar like this, because it offers first-hand information to the audience, allowing representatives from all the agencies involved to provide a coordinated front."

Martin plans to discuss rabies in animals, Pennsylvania's Rabies Vaccination Law, the role the Agriculture Department plays in rabies diagnostics, and the sequence of events that occurs once an animal is exposed to rabies.

The seminar, sponsored by the Health Department and Cambria County Humane Society, is geared toward health professionals, animal protection officers, police officers and emergency workers, as well as the public at large. To pre-register, call the Health Department at (814) 533-2205.

Keystone Farm Credit Charts Course

At left, Phil Kimmel, president, and William Hostettler, chairman of the board of directors, confer on the annual report for Keystone Farm Credit.

(Continued from Page A1)

ciation squeezed interest margins to offer lower interest rates. Despite the decline in new loans, Keystone was able to eliminate adverse loan volume. A loan classification systems shows that 90 percent of the loans are classified acceptable.

In 1994, Keystone retired \$2½ million of stock to return proceeds to customers. Kimmel said that if things go as planned, stockholders will see even more return this year.

The consolidation of two banks

recently allows the channeling of funds from securities to loan to people like you Kimmel told the stockholders.

The consolidation reduces overhead and the financial benefits will be passed on to the owners and borrowers. The consolidation does not affect directors, staff or branch officers.

Keystone Farm Credit provides credit and credit-related services to or for the benefit of eligible borrowers and stockholders in Pennsylvania counties Berks, Bucks, Carbon, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, Philadelphia, Pike, and Schuylkill.

The board of directors adopts a business plan, an operating budget, and an action plan. Directors elected at the annual meetings are Wilmer Hostetter representing Region 1; James Garber and Ezra H. Good representing Region 2; and Ellis Kunkel representing Region 3.

Hostetter has been farming in Chester County for 37 years. He is a dairy farmer and owns and operates Hostetter Grain. Hostetter is a member of Atlantic Breeders Cooperative, Pennsylvania Farm Bureau, DHIA, both the national and state Association, the Feed Dealers Association, and the Eastern Shore Grain Dealers. Hostetter serves on the Black Rock Camp Association Board, is treasurer for Mt. Vernon Church, and past president of the Oxford School Board.

Garber is a partner in James Garber & Sons, which is involved in poultry, hog, and steer production in Mount Joy. He is also vice president of Garber Farms, Inc., a trucking enterprise. Garber is a member of Pennsylvania Farm Bureau and is past vice chairman of the Lancaster County Farmers Association. Community involvement include chairman of the Mennonite Home Board, Hamilton Banik Advisory Board, and a trustee of Lancaster Bible College.

Good feeds steers and hogs in a livestock buyer of bull calves and hogs for meat. He manages Good's Receiving Station in Denver and is also a shareholder and director of New Holland Sales Stables, Inc. Good belongs to Pennyslvania Farm Bureau, the PA Motor Truck Association, Lancaster County Pork Producers, and the Livestock Marketing Association. He serves as a trustee for Red Run Mennonite Church.

Kunkel has been farming for 48 years in Berks County. He helps his son with the dairy and crop operation. He is a member of Berks County Farm Bureau, Kempton Lions Club, and the Kempton Fire Company. He has held offices in the Berks County Farmers Association, Kempton Lions Club, New Bethel Lutheran Church, and the Berks County Rural Letter Carriers Association.

The newly-elected nominating committee includes Kenneth L. Hershey of Chester County, Glenn Moyer of Montgomery County, Earl S. Weaver of Lancaster County, Bruce Kreider of Lancaster County, Eugene W. Martin of Lebanon County, David J. Bear of Berks County, and Donald Miller of Northampton County.

insecticide, Zeneca Ag Products simulated and improved on the powerful chemistry found in chrysanthemum flowers. The result is the first pyrethroid insecticide designed for soil application.

Because of this unique chemistry, FORCE ranks low in mammalian toxicity, which means very low hazard to humans. In addition, the low water solubility and soil mobility of FORCE greatly reduces any risk of leaching or groundwater contamination.

water contamination.

FORCE at 8 to 10 oz. per 1,000 linear row feet. The lbs./acre equivalent rates are:

6.5 lbs. per acre on 40" rows	7.7 lbs. per acre on 34" rows
6.9 lbs. per acre on 38" rows	8.2 lbs. per acre on 32" rows
7.3 lbs. per acre on 36" rows	8.7 lbs. per acre on 30" rows

FORCE may be applied in a T-band in front of the press wheels, in a band behind the press wheels, or in-furrow.
