

ZETOR TRACTOR DEMONSTRATIONS

See and Drive Three of these Great New ZETOR Tractors

Now thru APRIL 22
8 A.M. to 5 P.M. Daily

Right here next to our dealership

Zetor since 1948, and available in 90 countries around the world. Zetor tractors available in 20 to 158 hp, with rollbar or cab, front suitcase weights, block heater, rear weights, creeper gear, shuttle-reverser transmission for loader work. Three loader manufacturers have loaders available to fit the Zetor tractors. Zetor tractors are equipped with headlight, hi & lo beam, turn signals, running lights, air compressor and deluxe seat. All this and priced thousands of dollars less than the red, blue, or green!!

Take a test drive today - judge for yourself - ZETOR. We are anxious to demonstrate in your field. Call for details.

MILLER PRO

New Equipment For Farming In The 1990's

THE ULTIMATE FORAGE BOX

Defining the standards for innovation and durability in forage box design.

- **Flexible Engineered Formed Steel Construction** gives our forage box integral strength, with dynamic tolerance to flex as terrain and load varies. Our forage boxes were tested in the roughest, wettest conditions we could find... and they will withstand stresses caused by changing loads and field conditions.
- **Consistency of Speeds** is a major advantage of our 4-speed positive gear transmission. Control is smooth and predictable, and the Model 5100 clean out is faster than most boxes on the market. Variable speed drives on other manufacturers' forage boxes cause the apron speed to fluctuate as a result of the ever-changing load.

HYDRAULIC DUMP BOXES

- **Large Capacity** - Up to 1,100 cubic feet and 24,000 pounds dumping capacity.
- **Low Loading Height** - Works with most standard harvesting equipment
- **High Dump Height** - 11 foot clearance fills most trucks or semitrailers with ease.
- **Fast Cycle Time** - Unloads in less than a minute.
- **Rugged Dependability** - All steel construction and reliable slaved-cylinder hydraulics.
- **Easy Operation** - Automatically lifts, shifts and dumps

Field Balancer Storage Tools And Seeders

SURE-STAND GRASS SEEDERS REDESIGNED FOR THE 1990's

Save up to 50% on grass seed with a Brillion "Sure-Stand" Seeder. Recognized the world over as the best seeding method for planting grasses and legumes.

NEW FEATURES

• Improved seed placement
• Improved seed metering
• Improved seed distribution
• Improved seed cleaning
• Improved seed conditioning

Grass seed is a very expensive commodity. By properly placing the grass seed in the top 1/4" of a properly prepared seedbed you will realize maximum seed germination. Because of Brillion's precision placement of the seeds, seeding rates can often be cut to nearly half of the rates previously used. In many cases the savings in seed alone will pay for a "Sure-Stand" Seeder in just a short time.

EARLY BUYERS SALE
Model 5510 10 Ft. Pull-Type w/Brome Box, Acre Meter And Wheel Track Kit

Purchase Before May 10 - **\$6,425⁰⁰**

THE PULVERIZER LEADER

Brillion has manufactured pulverizers since 1895 and has long been the industry leader

Brillion Pulverizers provide the ideal seedbed by crushing clods, eliminating air pockets and firming the soil for better soil-seed contact. This allows moisture to be drawn into the plant by capillary action. The loose surface mulch retards evaporation and conserves moisture. Brillion's ductile iron wheels are 2.5 times stronger than gray, cast-iron wheels used by other manufacturers and carry a five-year limited warranty.
