The Rollant 66 makes fast work of 4'x5' bales. Its unique two-stage pick-up and close tines produce a clean, efficient harvest in less time. Rollatex netting wraps a bale in 10 seconds or less, and double-twine wraps it up in just 20.

The Rollant 46 introduced CLAAS's innovative fixed bale chamber to the marketplace. This versatile baler handles all farm operations from dry hay to silage. Nobody produces a better 4'x4' bale.

The Rollant 42 was designed for family livestock operations. This economical investment produces weather-tight 4'x4' bales for the highest nutrient content possible.

CLAAS bales mean nutrient-filled edible hay, low spoilage, and high crude protein retention.

Each Rollant offers the innovative chamber, low-profile pick-up, and world class dependability. And they all share CLAAS's international reputation for low maintenance, durability and long-life.
