

80 LBS. PER COW

It Can Be Done!!

Nothing fancy, just good forages, good genetics, comfortable well-managed cows, a healthy environment, and a sound feeding program utilizing Purina's Test Cow complete feed with Purina Maxi-Tech 32 Whole Cottonseed as a topdress. This is how it's being done at a 50-cow dairy in Bedford County (dairyman wished to remain anonymous)

The cows are fed haylage, corn silage, and dry hay separate from grain in a tie-stall barn and milked twice a day.

4/95 test day averages were
80.1 Lbs. milk

at 173 days in milk with a RHA of 22,507

Purina Mills and Bedford farm Bureau thank this Bedford County dairyman for his business as well as giving us the opportunity to help achieve their high production goals.
