

# Apple Blossom Festival

**ARENDSVILLE** (Adams Co.) — The Apple Blossom Festival will hold its 40th annual festival at the South Mountain Fairgrounds, located 10 miles northwest of historic Gettysburg, on Route 234, near Arendtsville on May and 7.

The fairgrounds are situated in the middle of scenic Adams County's 20,000 acres of fruit orchards.

The festival gates will open from 9 a.m. to 5 p.m. Admission is \$2 for adults and children under age 12 are free. Parking is \$1.

Visitors from an eight-state area attend the festival to view apple, cherry, and peach blossoms, which are usually in full bloom during this time.

The highlight of the weekend is the crowning of the Apple Queen

on Sunday at 2:30 p.m.

The festival includes agricultural exhibits, arts and craft demonstrations and sales, barbeque chicken, country sausage, funnel cakes, live entertainment and display of antique cars and engines.

Children's activities include pony and hay rides, free apple bobbing and pie-eating contests, free 4-H petting barnyard, and a free

tractor pull.

Apple food products available for purchase include apple cider, apple butter, candied apples, apple dumplings, apple pancakes, apple fritters, apple cake, and apple pies.

The festival is sponsored by Adams County Fruit Growers Association. For more information, call Kathy Kleiner, P.O. Box 515, Biglerville, PA 17307. Or, call (717) 677-7444 or Gettysburg Travel Council (717) 334-6274.

# TOP 10 REASONS

## WHY YOU SHOULD BUY A TANCO BALE WRAPPER

### TANCO

### COMPETITION

**1.** Five (5) points of support on turntable: Four heavy duty rollers add stability and support to the perimeter of the turntable in addition to the main central shaft. This allows Tanco wrappers to safely wrap the heaviest silage bales on rough or uneven ground.

Competition uses one central shaft to support the entire turntable mechanism

**2.** Single solid belt on turntable: The single belt enables Tanco wrappers to effectively wrap misshapen or soggy bales providing a positive surface for bale rotation.

Competition uses either no belts between rollers, or multiple belts which can allow bales to sag and slip.

**3.** Adjustable extendable axle: On trailed models the extendable axle provides a wide, stable wheel base when loading bales. Eliminates the need for counter weights.

Competition must add counterweights or tandem axles as options to effectively handle silage bales.

**4.** Top rollers on turntable: Extra rollers provide security to keep bales in place when wrapping at high RPM's (25) or on uneven terrain.

Competition - None.

**5.** Unloading ramp on trailed models: The ramp allows bales to be unloaded gently. When a wrapped bale falls hard it can "burp." Once it "burps" the bale does not re-seal. The ramp gives a smooth transition between the ground and turntable.

Competition - optional drop mats or ramps available

**6.** Optional "High Rise" axle kit for soft ground conditions.

**7.** Models available to fit every individual need, including machines to wrap big square bales. Tanco was first to build a large square bale wrapper, and continues to produce advancements in bale wrapping technology.

Limited product lines

**8.** Positive bale positioning: While being wrapped, bales are rotated the exact distance required to obtain optimum coverage.

Competition uses continuous hydraulic advance Bales can slip or over-rotate giving an uneven wrap

**9.** Durability: Tanco's subframe is one of the heaviest of any machines available in North America. The low profile design keeps silage bales closer to the ground with a low center of gravity for stability. Tanco's features are the result of years of experience and input from hundreds of individual, and commercial users.

Competition - Compare!

**10.** Price: From a basic 3 point Model AW200, to the trailed Model AW400 with automatic cut & start, bale and hatch counter, and tractor seat controls, Tanco prices are very competitive. Pay less for more features and durability than any other bale wrapper on the market.
