Precision Ag Field Day June 19

NORCROSS, Ga.—The Potash & Phosphate Institute (PPI), Foundation for Agronomic Research (FAR), The Fertilizer Institute (TFI) and the USDA/ARS Beltsville Agricultural Research Center are coordinating plans for a Precision Agriculture Field Day on June 19. The field day will be held at the USDA/ARS Beltsville Agricultural Research Center which is located on U.S. Route 1 just outside the Beltway in Beltsville, Md.

Visitors will see how space-age technology is providing important tools for nutrient management and other aspects of modern crop production. Site-specific or precision management in crop production could enable U.S. agriculture to remain a competitive player in world markets and at the same

time to safeguard our environment. Those attending will also learn how farmers can begin to set the stage for using this available technology by developing record systems and management plans for their fields.

Exhibits will open at 9 a.m. displaying various hardware, software, and related technology developments. Representatives will be on hand to answer questions.

The joint House and Senate Agriculture Hearing will begin at 9:30 a.m. in the 500-seat Beltsville Center Auditorium. Leading experts will testify on the technology available, how it is being used, and expected future advancements. Farmers from various sections of the U.S., who use precision agriculture techniques, will testify and discuss their experiences.

Lunch will be sponsored by the Maryland Grain Producers Association and the Maryland Grain Producers Utilization Board. Exhibits will remain open during the lunch hour. In the afternoon, bus tours will include live demonstrations of on-the-go yield monitors, variable rate input applications and other components of the system.

Pre-registration is required. The deadline for receiving pre-registration forms is Friday, May 26. For information, contact Bill Griffith, 865 Seneca Road, Great Falls, VA 22066.

BIG DUTCHMAN LAYER AND PULLET CAGE SYSTEM

BIG DUTCHMAN BROILER SYSTEMS

BIG DUTCHMAN FLAT CHAIN FEEDING SYSTEMS

You get what you pay for.

It's interesting that some Poultry Producers who would never buy the cheapest tractor in the lot will buy the cheapest equipment for their birds. If you want equipment that lasts, that costs little to maintain but delivers a lot in every workday, you want what Producers all across the country have already discovered: Big Dutchman, the "Mark of Excellence" and Hershey Equipment, Co. "A Step Ahead". You can always find cheaper equipment. But these days, who can afford it?

Big Dutchman. AND
