Horse Show Set

ERIE (Erie Co.)—The twenty-first annual Open Horse Show to benefit the Erie County 4-H/Youth Development Program will be held on Sunday, May 21, at the Waterford Fairgrounds. The show will feature 42 classes, including halter classes, game classes, and performance classes.

According to Debi Bartosek, 4-H volunteer leader and chairman of this year's show, local businesses have combined efforts to sponsor jackpot barrels, jackpot raised box keyhole, and jackpot poles classes. Exhibitors will compete for a piece of the jackpot in each of these classes.

The show, which will get underway promptly at 9 a.m., is open to all interested competitors eight years old and older. Although several classes are limited to 4-H members, most of them are open. P.O.N.Y. rules will be followed where applicable.

The entry fee to participate in any jackpot class is \$5 per entry. Entry fees for all other scheduled classes are just \$3 per entry.

Admission to the fairgrounds is free, and the public is welcome to come out and watch the show. Exhibitors in the classes will receive ribbons and prizes. In addition, three high point trophies will be awarded to top exhibitors in games, English, and Western classes. Don Recchiuti from New Philadelphia, Ohio, will be the judge for the 1995 show.

According to Bartosek, the show will benefit the entire Erie County 4-H/Youth Development Program. All proceeds will be used to help cover the costs of conducting the annual 4-H Fair or to provide scholarship monies to 4-H members attending 4-H camp or a

number of other 4-H events and activities.

Are You Robbing Your Forages Of Valuable Nutrients?

Silo Sym
Your Forage Guardian

Protect Your Forage Investment With SILO SYM

"Your Forage Guardian"

- a natural product containing no harmful chemicals or aids
- allows you to bale hay at up to 28% moisture and still maintain safe storage conditions
- a definite hedge against bad weather
- reduce nutrient losses which occur during harvesting and storage
- enhances forage palatability
- non-toxic to livestock
- higher feeding value, due to less leaf loss
- non-corrosive to equipment
- easily applied with Gandy Applicator
- helps ensiled crops to retain a higher percentage of the original dry matter, energy and other nutrients
- really works on square or round baled hay, haylage, corn silage and high moisture grains

JOHN DEERE

THE BETTER WAY TO HAY!

820 Sicklebar and 920 Rotary MoCo's revolutionize cutting, conditioning!

Three sicklebar models offer narrow profile guards, easy adjustments, urethane roll conditioning and a cut that's six inches wider. Rotary models feature John Deere-built modular cutterbar, choice of conditioning methods at all widths. New tongue design gives excellent maneuverability plus driveshaft protection.

Clear the field in record time with a 335 or 385 Round Baler.

Whether you choose the 750-pound bales of our 335 model or the 1,050-pound bales of our 385, you'll find John Deere balers make quick work of big fields, make it easy to get the most hay out of a field and make bales that stay tight right up to feeding time—with more hay wrapped in each bale! For more information, stop by Gor-Dun's today.
