

## Consider This A Garbage Disposal For Your Lawn.

The Regenerator® Model 46CV Chipper-Vac combines a pull-behind vacuum with a self-feeding chipper-shredder to handle every kind of lawn debris, from leaves and grass clippings to large branches and limbs. And with the Regenerator, you don't need to shovel up your shredded material or struggle with a collection bag. Take the Regenerator anyplace on your property where you need to chip or shred yard debris and it all goes into the solid steel container. It's that simple. And it's from Easy Rake. So it's built for years of dependable use.
