# Pa. Guernsey Association

(Continued from Page A28)

down, but more animals were consigned to the 16th annual Blue Halter Calf and Added Consignments Sale, held April 22 at the Bedford Fairgrounds in conjunction with the Pennsylvania Guernsey Breeders' Association annual awards banquet.

The sale offered more consignments in addition to the calves. The total on 23 head sold as the Blue Halter Calf Sale was \$25,925, for an average of \$1,127.17. The seven head included in the "added consignments" sold for a total of \$10,025, for an average of \$1,432.14.

The highest selling animal was a senior calf consigned by Spring Walk Farm, of Big Prairie, Ohio, and purchased for \$2,600 by Troy Hill of Sandy Lake.

The second highest selling animal was also a senior calf, this one consigned by Harold Pyle, of Malvern, which was purchased by an unnamed Kentuckian through Pa. Guernsey Association business manager Jim Trotter.

The Guernsey Gold Heifer Sale began in 1986 as a small sale of

select open heifers for junior members. Fifteen percent of the sale gross is to be set aside for the production contest.

All purchasers must be between ages 9 and 19 as of Jan. 1 prior to the sale, and only one may be purchased per consignment year. Heifers sold in 1995 are to then compete in the 1998 production contest.

## Hiller Receives Award

Gordon Hiller, president, Pennsylvania State Grange, was recently given the Pennsylvania Department of Environmental Resources' Outstanding Work Unit award. This award is given to individuals whose cooperative performance resulted in outstanding achievement. Hiller was honored for his work on the Agricultural Advisory Board in 1994 when he served as the chairman. The board provides technical advice and recommendations to DER regarding agricultural issues. In addition to Hiller, Richard VanNoy, a member of the Troy Grange #182 in Bradford County, and Dean Auchenbach were also cited with the work unit award.

## IN GROUND MANURE STORAGE INSTALLATIONS

- ★ S.C.S. Approved
- ★ Underlayment between Liner and Earth
- ★ High Density Polyethylene (60 mil thick) Liner Guaranteed for 20 Years

## BreezeMaster

**76 Cow Total Ventilation System - Denver, PA**  
Lapp's Barn Equipment can install a high-performance/high efficiency tunnel ventilation system in your barn. A tunnel ventilation system will give you an even air flow throughout your barn of 2-5 mph. This gives you the advantage of better controlling temperature to give your cows more comfort which means more milk! Also, a tunnel ventilation system eliminates circulating fans, provides summer and winter ventilation and controls fly problems! An optional unit can even automate your ventilation so you will never even have to worry about it when you're not there, so you can concentrate on other things! At Lapp's, we sell high quality ventilation systems manufactured by Acme Engineering. Acme products feature such things as:

- Galvanized Construction
- Wide Cambered Propeller
- Riveted Blades
- Unique Captured Bearings
- Vertical Support Frame
- Screens Pre-cut
- Totally Enclosed Motors
- Optional Discharge Diffuser Cone
- Optional Belt Tightener
