Model 1100 Rotary Rake

Miller-Pro brings you this revolutionary product, designed and made in the United States, to meet the changing demands of the modern North American farmer.

- **Hydraulic Height Adjustment** - Exclusive hydraulic control at tractor eliminates dismounting to set higher
- **Gentle Raking Action** - 11 cam action tine arms gently lift and release crops with no roping and minimum leaf loss.
- **High Raking Capacity** - Wide stance rakes a 10'6" swath, with up to a 13'5" working width, speeding field completion time.

- **Well Formed Windrows** - Crops are piles smooth and fluffy, even on hills or curves.
- **Smooth Turns** - Constant velocity power take-off driveline assures even windrow formation and maneuverability.
- **Maximizes Crop Harvest** - Rotary tines stay on cut areas longer than traditional rakes, picking up more crop.
- **Rugged Design** - High strength steel, enclosed machinery components, durable bolted swath curtain and totally engineered design assure long life.

Survival of the fittest

Farmers everywhere in the world compare all other disc mowers to Kuhn because Kuhn sets the standard that all the others follow. The GMD series of Multidisc Mowers features oval shaped discs to get through crops without plugging. The cutterbar drive-line is designed for perfect dynamic balance with minimum vibration. And the gearbox gears are helical cut for optimum lubrication no matter what angle the mower is cutting
