

WOODS

Woods rearmount mowers

The standards for rearmount mowers were set in 1971 when Woods introduced them... Now we've redefined the cutting edge with our Woods rearmount grooming mowers

Woods reputation for trouble-free performance has been earned with features like...heavy-duty gearboxes, designed and manufactured by Woods...Single V-Belt drive with automatic belt tension take-up...Industrial quality blade spindles with lubricated tapered roller bearings..high velocity side discharge deck design... "high-lift" blades.... easy-on, easy-off 3 -point hook-up. All these features and more guarantee that clean, even, well groomed look every time you mow so you spend more time enjoying your lawn and less time caring for it.

If your tractor is in the 16 to 50 horsepower range, there's a new Woods rearmount lawn mower for you. And like all Woods products, your Woods rearmount mower will be

"worth more in the long run." We've been around since 1947 and during that time Woods has been keeping promises and making mowers that keep on working years after most others "can't cut it."

Choice of Models - Only Woods offers the choice of belt-driven or gear over belt drive models in 5 ft and 7 1/2 ft cutting widths.

Woods vee-forward deck design features a high-velocity air tunnel that moves cut material out fast and distributes it evenly. Woods RM mower decks are formed from 8 ga. steel plate. Tunnel and deck are one piece which adds strength by eliminating the need for high stress weld areas.

SPECIFICATIONS

5 MODELS TO CHOOSE FROM

SPECIFICATIONS	RM360	RM372	RM550	RM660	RM990
Cutting Width	60"	72"	60"	72"	90"
