"THINK CONCRETE WHEN PLANNING FEED STORAGE"

"The Big Jim is doing a fine job bringing the feed down. We really believe the drive-thru, Big Jim System is worth anyone's consideration. It is costing more every year to grow forages and we feel our minimal quality and quantity losses are easily paying for the additional initial cost of this investment compared to that of a bunker. We are throwing no feed away and the cows are milking the best they ever have." (over 90 lbs. per cow.)
