**8315 Disc Mower Conditioner**  
 15 Foot Swing Frame, Pull Type

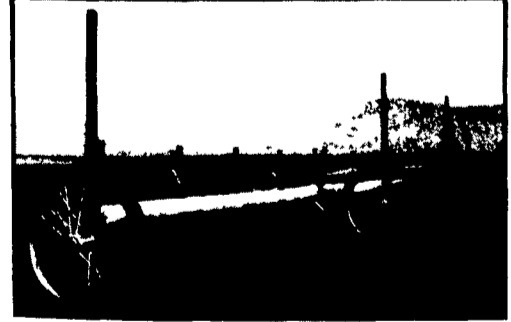

**First Of Its Kind**  
 The 8315 is the first mower conditioner of its kind to combine a center-pivot tongue and mechanical drive with 15'3" (4.65m) rotary disc cutting performance. With its wide cutting width, the 8315 is designed to handle large acreage hay production. A hydraulic center-pivot tongue and swivel gearbox hitch enables the 8315 to cut fields in both directions or turn corners with ease. Its rotary disc header features a heavy-duty spur gear cutterbar and 10 oval cutting discs that are powered by a belt and gearbox drive. High-speed discs are heat treated spring steel for durability and spin at 2,600 rpm to slice through the toughest crop conditions. Header tilt is also hydraulically controlled from the cab. The wide 110" (2.79m) steel-on-steel intermeshing conditioning rolls feature automatic separation for non-plug operation, and adjustable roll spacing and pressure. A swath baffle and adjustable windrow forming shields are standard.

**FULL-FEATURED PERFORMER**

The Case International 8340 mower conditioner offers you features in a 9 foot plus cutting width that you'd only expect to find as options, or on a larger more expensive machine. Features like a heavy box-beam frame and tongue that you hydraulically position from the tractor. Quickly steer around field obstacles or switch between field and transport positions. Low maintenance describes the 1700-stroke per minute sickle. Sickle sections bolt-on for quick and convenient replacement. A five-bat reel feeds the crop uniformly into the conditioning rolls. Rolls automatically separate to reduce the chance of plugging. And there are even more features that make the Case International 8340 a truly deluxe high performance mower conditioner. Stop in and see them all.
