The Chain Saws For People Who Want To Act Like Lumberjacks, Not Work Like Them.

If you know a little about the timber business, you know that Stihl chain saws have been used by professional woodcutters for over sixty years.

So maybe you think Stihl equipment is "too good" for a suburbanite or farmer or anyone else who needs to cut wood on an occasional basis.

Well, we're happy to tell you that Stihl makes a whole series of chain saws with your needs in mind.

But don't confuse

The Stihl 021 Superb power-to-weight ratio, isolated carburetor, electronic ignition.

The Stihl 023 All the features of the 021, plus 30% more power

The Stihl 025 More powerful than the 023, plus convenient side chain tensioner.

The Stihl 026. Designed for professional use, or the demanding weekend-woodcutter

them with discount-store chain saws.

All Stihl saws are designed for performance, ease of handling and starting, and durability.

Now, about the 026 shown at the bottom: we'll admit we sell this saw to professional woodcutters. But it's also bought by people who simply put a lot of hours on a saw every year.

And by the way, when were you ever unhappy because you bought a product that was too good?

For The Part Of You That Promised You'd Never Compromise.
