**"Charlie's new lagoon pump sure is fast!"**  
**"That's because it's one of those new Van Dale 5000s."**

Fast and powerful only begins to describe Van Dale's new line of Series 5000 Lagoon Pumps. The Series 5000 has the perfect combo of agitation volume and pressure to break up hard surface crust or bottom manure solids in even the largest lagoons or pits. And with up to 5,000 G.P.M. agitation capacity it can blast a stream of manure 100' or more in any direction to create easy to pump and easy to spread slurry. They are by far, the fastest and easiest operating pumps on the market.

**THE VAN DALE ADVANTAGE**

**Series 5000 3-Point Hitch Model**  
 For use in straight and sloped wall open manure pits. Built with the same ruggedness as Van Dale's trailer lagoon pumps, it also shares the same high performance features

**Series 5000 Trailer**

**CHECK OUT THESE VAN DALE FEATURES!**

- ✓ Hydraulic Controls - provide easy operation and full control from tractor seat.
- ✓ Aggressive 28" High Pressure Impeller - delivers outstanding agitation with 85-130 H P tractors at 540 R P M
- ✓ Adjustable Nozzle - directs manure blast with precise control of 120° vertical and 340° horizontal movement

**Van Dale Tanks ... Built to Last!**  
 These 2700 to 5500 gallon models feature 1/4" steel plate construction, backed by a 10-year warranty. Exclusive full length agitation auger, rear impeller and hydraulic brass valve provide low, uniform spread pattern

**VAN DALE WASTE HANDLERS**
