

Amy Espenshade

(Continued from Page B14)

nosed environmentalists and livestock diseases that farmers must face! But we are still hanging on. American farmers are learning how to manage their land and money to provide food for mil-

lions of people every day. I have tremendous pride knowing I'm part of the world's most indispensable industry providing the basic necessities of life. Agriculture forms the backbone of our entire earth, and that's something I want to continue to be part of

throughout my existence. Every time I sit down to a meal, I thank the Lord for the food before me, but I also thank the farmer and remember the tremendous hard work and care they take to produce that food.

Obviously, we can't live without farmland. Extinction of farms would leave no place to grow food and leave millions of people without jobs. This concern has sparked

many agriculturally related people to discover solutions to the industry's problems. American farmers learn how to manage their land and money to provide food for

millions of people every day. The agriculture industry faces hard times, but with increasing technology and new programs, hope remains.

MILK AMERICA'S HEALTH KICK

NEW!! COW MATTRESSES
The Answer To Cow Comfort!

- Fits Any Stall
- Polyester Bag Filled With Rubber
- Bag Sewn Every 4" To Prevent Shifting
- Heavy Nylon Waterproof Fabric Top Cover
- Easier for cows to get up & down
- Reduces Bedding costs
- Installation available

Raising Expectations

Forget everything you've heard about compact tractors.

MF 1200 Series Tractors and implements perform way beyond their size and price. Precise lawn mowing. Heavy duty weed and brush clearing. Serious gardening. Landscaping. Materials handling. Trenching. Even light field work. These tractors excel at jobs that used to require big, expensive, fuel-thirsty tractors and implements.

Standard features include water-cooled, 3-cylinder, diesel engines, 3-point hitch and high-capacity auxiliary hydraulics, and rear PTO. (Mid-PTO is also standard on the 1210, 1220 and 1230.) Choose two or four-wheel drive ag or turf tires, hydrostatic or synchro-shuttle transmission.

| MF® Compacts sized to your needs | | | | | | |
|----------------------------------|------|------|------|------|------|------|
| Model | 1210 | 1220 | 1230 | 1240 | 1250 | 1260 |
| Gross engine hp | 18.1 | 21.1 | 26.8 | 27 | 32 | 37.3 |

Stop by your local Massey Ferguson dealer today and see why MF 1200 Series tractors are constantly exceeding their owner's expectations.

Massey Ferguson is a wholly owned subsidiary of AGCO Corporation, Duluth, GA.
