Scholarship Winners Announced

LANCASTER (Lancaster Co.)—The Lancaster County Chapter of the Penn State Alumni Association has announced that it has awarded Pennsylvania State University scholarships to four Lancaster County high school seniors.

The 1995 scholarship recipients were Phillip Bower, Manheim High School; Andrew Brown, Penn Manor High School; Kerry Frey, Cocalico High School; and Anastasia Mitchell, Garden Spot High School.

Phillip, son of Mr. and Mrs. William Bower, Manheim, ranked

third in his graduating class. He plans to enroll in geo-environmental engineering.

Andrew, son of Mr. and Mrs. Daniel Brown, Conestoga, ranked second in his graduating class. He plans to enroll in the engineering department.

Kerry, daughter of Mr. and Mrs. Robert Frey, Adamstown, ranked first in her graduating class. She plans to enroll as a communication disorders major.

Anastasia, daughter of Mr. and Mrs. Howard Mitchell, Narvon, ranked first in her graduating class. She plans to enroll in the engineering department.

Emu Growout Facility

BLOOMSBURG (Columbia Co.)—Preliminary plans are under way here at Longview Emu Farm, to begin the construction of a 250-bird unit growout facility. Longview Emu Farm, owned and operated by David and Joanne Long, has been breeding emu for more than two years, and is now in a position for a transition to the commercial market.

In addition to Longview produced emu, they will begin taking contracts from private emu farms to grow out chicks to commercial age. Approximately 95 acres will be set aside for use as growout areas, with initial set up utilizing about 25 acres. Growout contracts will be on a first-come, first-served

basis. Emu must be a minimum of 60 days old and must have current inoculations.

The emu is now being raised nationwide in the U.S. as well as in Canada, France, U.K., Spain and other parts of the world. The American Emu Association has more than 6,000 members in 48 states involved in the emu industry. By-products of the emu include a red meat similar to beef, oil rendered from fat being used in cosmetic products with research under way for medicinal applications, hide used for leather, and egg shells and feathers used for crafts and jewelry items.

For contract details or information on emu farming, call (717) 437-9185.

- Woven Wire(Non-standard sizes) \$1.60 sq. ft.

FLOORING

BOSS HOG WOVEN WIRE
Woven wire is generally used for hog flooring but is not limited to this use. Elevator fencing, fork truck safety cages, wire truck tailgates, etc. can also be made from the same construction. Call for your specific job needs.

Plastic Flooring

Sanitation - Constructed of solid plastic material. Some plastic floors are foamed. As these floors wear down their micro air pockets fill with bacteria which make the floor difficult, if not impossible to disinfect. This flooring features a triangle underside design which diminishes the need for high pressure washing from below to completely clean, as the floor can be cleaned sufficiently from above.

Outstanding Traction - Unique "High-low" finger design provides traction for pigs of all sizes, while enhancing safety and comfort.

VENTILATION

Barn Kooler

The only patented air circulation fan on the market! Because of its design, it provides more air movement and therefore more cooling effect than any other circulation fan.

U.S. Pat #4,819,183

CANARM Ceiling Fans
56" Metal Blades

AAA Glass-Pac Fiberglass Ventilation Fans

Fiberglass fan housing won't rust or corrode, plastic shutter, solid one piece fiberglass propellers and heavy duty motor.

Fiberglass Maxi-panel Fans

Exclusive lifetime guaranteed fiberglass housing never rusts and never needs painting. High efficiency motors for greater electrical economy. Choose from 14", 18", 24" or 36" sizes.
