Breeze Master

126 Cow Free Stall Barn - Quarryville, PA

Lapp's Barn Equipment can install a high-performance/high efficiency tunnel ventilation system in your barn. A tunnel ventilation system will give you an even air flow throughout your barn of 2-5 mph. This gives you the advantage of better controlling temperature to give your cows more comfort which means more milk! Also, a tunnel ventilation system eliminates circulating fans, provides summer and winter ventilation and controls fly problems! An optional unit can even automate your ventilation so you will never even have to worry about it when you're not there, so you can concentrate on other things! At Lapp's, we sell high quality ventilation systems manufactured by Acme Engineering, Acme products feature such things as:

- Galvanized Construction
- Wide Cambered Propeller
- Riveted Blades
- Unique Captured Bearings
- Vertical Support Frame
- Screens Pre-cut
- Totally Enclosed Motors
- Optional Discharge Diffuser Cone
- Optional Belt Tightener
