BreezeMaster

101 Cow Tie Stall Barn—Fleetwood, PA
Lapp's Barn Equipment can install a high-
performance/high efficiency tunnel ventilation system
in your barn. A tunnel ventilation system will give you
an even air flow throughout your barn of 2-5 mph. This
gives you the advantage of better controlling
temperature to give your cows more comfort which
means more milk! Also, a tunnel ventilation system
eliminates circulating fans, provides summer and
winter ventilation and controls fly problems! An
optional unit can even automate your ventilation so
you will never even have to worry about it when you're
not there, so you can concentrate on other things!
At Lapp's, we sell high quality ventilation systems
manufactured by Acme Engineering, Acme products
feature such things as:

- Galvanized Construction
- Wide Cambered Propeller
- Riveted Blades
- Unique Captured Bearings
- Vertical Support Frame
- Screens Pre-cut
- Totally Enclosed Motors
- Optional Discharge Diffuser Cone
- Optional Belt Tightener
