

If You Want The Real Facts On A Real Dump Wagon, See Binkley & Hurst Bros. Today Ask About Financing!

HERE'S THE STRAIGHT SCOOP

ABOUT

RICHARDTON HIGH DUMP WAGONS

Seems like some folks are always trying to catch up. And sometimes they'll do just about anything to get ahead. But you know that for over 35 years Richardton high dump wagons have been the best in the business and in the field. So get the best — Hitch up a Richardton Wagon today.

What the competition says about Richardton Wagons	The truth about Richardton High Dump Wagons
Cylinders and cables	Our exclusive patented lock cylinders ensure that the box won't tip over. Our cable system allows you to top off a truck load with a partial dump. You're not restricted to a full dump cycle. And, you save time because there are no master/slave cylinders to purge.
Over two minute cycle time	ALL cycle times depend on your tractor's hydraulic system! We designed our wagon to cycle in less than one minute.
12GA. steel on entire hopper	Our 12GA. steel construction is absolutely the most cost effective and strongest on the market. It's that way today and it's been that way for over 35 years.
Internal braces welded to flat steel	We'll say it again — Richardton wagon components are the strongest and best built on the market!
300# rated standard black pipe fittings	Flared hydraulic steel tubing with 5,000 PSI rated fittings are standard on Richardton wagons.
1/4" wall material	Our 1/4" walls withstand decades of hard use. And, just so you know, we use 5/16" where necessary.
3 1/2" x 3 1/2" slide tubes, steel on steel	Others copy our original heavy duty nylon no-grease slide system. There is NO metal on metal at any time!

RICHARDTON
Manufacturing Company

- Honesty
- Tough, durable wagons
- A fair price
- The industry leader others imitate

Hitch up a real wagon today at your Richardton dealer — Leasing available!
