S.E. FFA Dairy Show Displays Quality

VERNON ACHENBACH JR. Lancaster Farming Staff NORTH CORNWALL (Lebanon Co.) — The 40th annual Pa. Southeastern District FFA Dairy Show was held Tuesday at the Lebanon Area Fairgrounds.

Participation in the show, which suffered last year as did participation in many shows because of concern over bovine virus diarrhea, was up, though not as great as previously.

According to Christine Williams, chairperson of the show committee, though the numbers of animals enteredisn't as strong as it once was for a number of reasons, the quality of animals continues to be high and competitive.

Thomas Arrowsmith, of Peach

Bottom, judged fitting and colored breeds, while Larry Swartz, with Atlantic Breeders Cooperative, judged the showmanship and Holstein breed.

FFA members from Berks, Bucks, Chester, Lancaster, Lebanon, Lehigh, Montgomery, Northampton, and Schuylkill counties were eligible to compete.

In the Ayrshire breed, Craig Nolan and brother Brian Nolan, of Pottstown, showed the champions. Craig's senior 2-year-old, Dreamnol Olympic Brita was judged senior and grand champion while his junior yearling heifer Dreamnol Trident's Minerva was junior champion and best animal bred and owned. Craig also showed the reserve junior champion, a senior

Brain Nolan showed a 5-yearold Dreamnol Johnny's Kassy to take reserve senior and reserve grand champion.

In the Brown Swiss breed, Garrett Mase, of Lebanon showed the senior champion and the best animal owned and bred, his junior 2-year-old Meadow Hill Austin Pepsi.

In the Holstein breed, Sheri Bollinger, of Quarryville showed her senior 3-year-old Locust Trail Stylist Crissy to take senior and grand champion as well as best animal bred and owned.

Jesse Bomgardner, of Ono, showed his senior 2-year-old, Loving-Meadows Krystan TW, to earn reserve senior and reserve grand champion. Jesse also showed the junior champion, a senior yearling Loving-Meadows Kameo.

Jarrod Johns, of Atglen, showed his senior yearling, Glen-Valley Astre Kirsten, to win reserve junior champion.

In the Jersey breed, Andrew Youse showed his aged cow, Elmview Legend Lana, to win senior and grand champion, while his junior 2-year-old, Jacob Janelle of Saybrook, was named reserve senior and reserve grand champion.

COLLEGE PARK, Md.—The Upper Marlboro Facility of the Central Maryland Research and Education Center will host the Southern Maryland Ag Field Day on Wednesday, July 26, from 8:30 a.m. to 1:30 p.m.

Historically, the Upper Marlboro Facility has had an emphasis on tobacco research; however, the facility has expanded its mission to include work on other highvalue crops and environmental studies. This is reflected in the activities scheduled for its 45th annual field day.

From 8:30 a.m. to noon, two wagon tours will make brief stops at various field locations for research presentations. Tour one features "Managing Pastures For Affordable Horse Feeding and Environmental Soundness," presented by Janine Baratta, southern Maryland consultant for the cooperative extension service. She will emphasize alternative pasture management techniques that are designed to prevent overgrazing. With these practices, more efficient utilization of grass as a food source can be obtained, and environmental concerns, such as ero-

Another presentation, by Dr. Adel Shirmohammadi, Department of Agricultural Engineering of the University of Maryland at College Park (UMCP), details the "Environmental Fate of Pesticides." Rounding off this tour will be an overview of the production practices of the new cut flower industry and an evaluation of field production practices for seedless cucumbers.

Tour two features tobaccorelated research and other topics. Andrew J. Clark, coordinator of the U.S. Department of Agriculture's Sustainable Agriculture Network at the National Agricultural Library in Beltsville, will present research on winter annual cover crop contributions to corn production. As an alternative to nitrogen fertilizers, cover crops may maximize production yields while having minimal environmental impact.

In the morning, field day visitors can browse through displays, such as "Introduction to Computer Uses on the Farm" or "Making the Most of Seasonal Produce." The USDA's Sustainable Agriculture Network and other agricultural equipment will be on display throughout the day.

You can munch on tasty tidbits and enjoy "A Taste of Southern Maryland" theme during lunch. The luncheon is available for a nominal charge. Dr. Arvydas Grybauskas, extension plant biology specialist, is the guest speaker and will give an update on tobacco discases.

To reach the Upper Marlboro Facility from the north, proceed south on Interstate Highway 95, then take the state Highway 202 exit and proceed east for 6 miles. The facility is on the right.

From the south, proceed north on U.S. Highway 301 to Upper Marlboro; turn west on state Highway 725 (Marlboro Pike). Then turn right onto state Highway 202 (Largo Road) and proceed northwest for 2 miles.

For more information on the Southern Maryland Ag Field Day, Maryland residents may contact their county extension agent. Phone numbers can be found in the blue pages of your local telephone directory, or call Mark Spicknall at the Upper Marlboro Facility at (301) 627-8440.
