

We hear you.

We know that making hay can be one of the hardest, hottest, dustiest jobs a farmer has to face. And a big gamble, too, when bad weather is on the horizon.

So when you asked for a tractor with the power and versatility to handle every haying operation from cutting and conditioning to baling and transporting, we heard you.

When you said you needed a tractor with a full complement of features, yet sized just right for utility applications, we heard you.

And when you told us you needed the kind of reliability and durability that'll never leave another windrow stranded in a wet field, we heard you.

And we responded with even more improvements to the industry's most advanced mid-range tractors, the Case International MAXXUM® 5200 Series.

That's why you'll now find a handy "neutral" position built into the standard full-power MAXXUM shuttle shift, allowing you to put the tractor in neutral without using the foot clutch - a real convenience

when tying off round bales.

The MAXXUM cab is now more monitor-friendly than ever, with easy rear-window cable access and two new mounting points in the cab - a definite advantage when working with productive, monitored haying equipment.

And as always, every MAXXUM is built big-tractor heavy, with 2 1/2 in. thick cast frame rails, 7700 lbs. of rear-hitch capacity, and an expansive cab with 44 sq. ft. of glass - an indispensable benefit when keeping an eye on the windrow or working with high-productivity tools like the Case International 8312 Disc Mower Conditioner.

What size MAXXUM is right for you? With four models ranging from 80 to 112 PTO hp, you'll have a lot to discuss with your Case IH dealer. And remember to ask about Total Product Support, our commitment to the service and parts that turn a sale into a true partnership.
