

CLAAS™ Rollant round balers give you what you want

The **Rollant 66** makes fast work of 4'x5' bales. Its unique two-stage pick-up and close tines produce a clean, efficient harvest in less time. Rollatex netting wraps a bale in 10 seconds or less, and double-twine wraps it up in just 20.

The **Rollant 46** introduced CLAAS's innovative fixed bale chamber to the marketplace. This versatile baler handles all farm operations from dry hay to silage. Nobody produces a better 4'x4' bale.

The **Rollant 42** was designed for family livestock operations. This economical investment produces weather-tight 4'x4' bales for the highest nutrient content possible.

CLAAS bales mean nutrient-filled edible hay, low spoilage, and high crude protein retention.

Each **Rollant** offers the innovative chamber, low-profile pick-up, and world class dependability. And they all share CLAAS's international reputation for low maintenance, durability and long-life.

Call now to see how you can improve the round figures on your bottom line.

—one quality round bale after another.

Nobody Does Hay Better

The revolutionary **MoCo's** are here

- Six models, all with an innovative, three-point suspension system for unmatched flotation.
- Three sicklebar models: Narrow-profile guards, easy adjustments, exclusive urethane-roll conditioning, and a cut that's six inches wider than other makes.
- Three rotary models: John Deere-built modular cutterbar is the strongest, easiest-to-service cutter-bar. A choice of conditioning methods at all widths.
- Get excellent maneuverability plus driveline protection from the new tongue design.
