Tough tillage conditions have met their MAX

Terra-Max penetrates deep and saves residue.

The double-shank Terra-Max II and the single-shank Terra-Max I fracture even the hardest soil for compaction-fighting aeration, maximum root penetration, moisture permeation, and seedbed preparation. Residue remains virtually intact to minimize water and wind erosion.

Adjustable, 20" spring-loaded coulters slice the residue.

Next, Worksaver's unique heat-treated steel, helical shanks shatter hardpan as deep as 20".

Finally, an optional roller/conditioner breaks up clumps, works residue into the ground, and levels the seedbed. Secondary tillage usually is unnecessary.

Individual shank rows adjust to popular row widths. One person can easily adjust the gauges to regulate the working depth.

Wide Track Heavy Duty Wagon

Ideal for Forage Box and other applications.

25 years of field service have proven the Double Reach Feature.

It eliminates the problem of bent reaches. All models have Taper Roller Bearing Tongue Mount and Ball-in-Socket Rod Ends.

A proven feature for long life no sway trailing.

Horst Farm Wagons have short turning radius.

The Double Reach Feature does not cause any problem about flexibility.

Consider This A Garbage Disposal For Your Lawn

The Regenerator® Model 46CV Chipper-Vac combines a pull-behind vacuum with a self-feeding chipper-shredder to handle every kind of lawn debris, from leaves and grass clippings to large branches and limbs. And with the Regenerator, you don't need to shovel up your shredded material or struggle with a collection bag. Take the Regenerator anyplace on your property where you need to chip or shred yard debris and it all goes into the solid steel container. It's that simple. And it's from Easy Rake...so it's built for years of dependable use.
