

PERRY CO. DAIRY TOUR

TUES., AUG. 29

10:45 A.M.

MEETING PLACE: Rts. 850 & 17, Kistler, PA

CARL & LEONARD KRESGE Provida Dairy Farm, Loysville, PA

In 1987 Carl moved his family and his Harvestore® structures from Bucks Co. to Perry Co. This year he added a third 2080 structure with a new Alliance™ unloader. Manure is processed through a 6219 Slurrystore system installed in 1988. Current average on the 140 milking cows is over 21,000 lbs. with a 3.6% test.

JESSE & BARB SINGLETON, Landisburg, PA

Jesse and Barb switched from a local grain bank to a Harvestore® structure for high moisture shelled corn in 1994. Currently on their 50 milking cows, the herd average is 21,300 lbs. milk, 678 lbs. protein and 744 lbs. fat.

For reservations or further information, call your local representative or the Penn Jersey office (717-354-4051)

The results you may achieve with your Harvestore® System depends primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of A.O. Smith Harvestore Products, Inc.
