Weight Transfer is needed on some fields for best mulching results. Unique Farmhand system allows weight to be distributed between the front and rear rollers and the draw bar as needed.

Bearings on torsion-mounted hangers and roller tool bars combine with split roller axles to isolate shock loads. Up to 12 triple-lip sealed, self-aligning ball bearings are used on the main frame of each machine.

Good Running Gears Come From Binkley & Hurst Bros.

Double Reach - Double Strength Coupling Poles On Larger Model Wagons With Good Flex-i-bility. Sizes Range From 8-10-12-13-14 And 18 Ton

On all model wagons the steering assemblies are mounted on Taper Roller Bearings. Over 20 years field service has proven that this feature plus ball-in-socket tie rod ends assures long life and no sway trailing.

The Double Reach Feature does not cause any problem about flexibility
