This New Scott Tafco Body and Truck In Stock Ready For Your Farm Ask For Dan

Horst Running Gears Come from Binkley & Hurst Bros. Inc. A Very Important Standard Feature On All Horst Wagons From 8-10-12-13 and 14 Ton Is This Unique Roller Bearing Steering.

On all model wagons the steering assemblies are mounted on Taper Roller Bearings. Over 20 years field service has proven that this feature plus ball-in socket tie rod ends assure long life and no sway trailing.

12 - 13 and 14 Ton Gears Double Reach Coupling Poles Means Double Strength

The Double Reach Feature does not cause any problem about flexibility.

200H 73" Track
200W 78" Track
200H 80" Track

Quality & Strength you can depend on!

PULLTARPS THE ONE MINUTE TARP SYSTEM MFG.

Truck Covers

This is the new 1995 PULLTARPS System. Lighter, yet stronger than the Original design. And it's smaller, easier to install and better looking too. This new System comes with an "Exclusive External Spring Tensioner." You won't tarp your loads the old fashioned way ever again!

The One Minute Tarp System Guaranteed For Life

KELDERMAN AIR RIDE

Adding a Kelderman Air Ride Conversion system to your present suspension will result in a two stage suspension system. This is not to be confused with adding an Air Bag mounted above the axle. Allows adding extra spring leaves to increase load rating and still maintain Air-Ride comfort. The bolt on basic package utilizes an air stem mounted in a convenient location to add or remove air from the system. Optional 12 volt compressor allows changing air pressure setting on the go. Currently available for front and rear suspension in Dodge Series 250 & 350 trucks. Available soon for Dodge Dakota models. Also available for some Ford, Chevy and GMC truck models. Special orders available for most motor homes. This option will smooth out the ride on those rough-road fishing/camping, trips.

AIR RIDES IN STOCK

Farmhand CultiMulchers, available in 10' to 15' widths, make perfect seedbeds in a single pass!

Farmhand Mulchers bring clods to the surface and crush them...then smooth and firm the seedbed to seal in moisture. You get firm, level seedbeds that improve seed-to-soil contact for increased germination and more even field stands. Check these quality features:

- Torsion mounted bearing hangers and roller tool bars work with split roller axles to isolate shock.
- Triple lip sealed, self-aligning ball bearings for long life.
- Standard rear scrapers on smooth rollers; front scrapers available.
- Choose looped "C" or Danish vibrating tines with 2 1/2" shovels; smooth or crowfoot rollers.

Tough. Reliable. Heavy-duty features you can count on. Stop in. Check out a CultiMulcher from Farmhand.
