

After all these years,
he's earned it!
Introducing
Equine Senior

FOR THE SPECIAL NEEDS
OF OLDER HORSES.

Each horse shows its own particular signs of aging.

Some start with teeth problems.

Others suffer digestion loss of 10-20%.

Still others show declining hair coat or body condition, aging bones and joints, anemia or allergies.

But you can minimize the impact of these problems and keep your horse as healthy as possible with proper care, regular veterinary check-ups and the right feed.

Research shows that older horses need a higher level of protein, more digestible energy and fiber and different levels of minerals and vitamins in their diet.

Now there's a feed specifically formulated for older horses.

New Equine Senior™ from Purina.

Its unique feed form is *easier to chew and digest*. It also offers great *palatability and improved skin and hair coat condition*. It has the *higher levels of C and B vitamins* older horses need. Plus *trace minerals and adjusted levels of fat and protein* to meet the special needs of older horses.

AMERICA'S
LEADER
IN HORSE
NUTRITION.

Look for Equine Senior at your Purina dealer and make these years your horse's best years.

After all, he's earned it.
