LAPP'S BARN EQUIPMENT
CURTAIN SYSTEMS

Lapp's Curtain System
 Lapp's insulated curtains can help you make your farm more efficient. You can save up to 30% on your fuel/energy costs while maintaining a comfortable climate enables livestock to feed into live weight more efficiently, the curtain makes your barn warmer in winter and cooler in summer.

Our curtains are available in both 4 and 6 ply, both of which are faced with a impervious white vinyl layer which faces the elements. With all these benefits, the average payback is two years!

A lower cost alternative to the insulated curtains, are Lapp's single layer curtains. You still get all the benefits of using a high quality curtain to keep the elements outside and being able to lower the curtain to naturally ventilate in your barn.

Frozen silage? No problem!

For frozen silage and hard-packed haylage, the Patz cutter-and-claw gathering chain outperforms augers. This time-proven gathering chain with its chain-saw cutting action cuts out frozen silage aggressively. Shouldn't your next unloader have a gathering chain?

Consider these Model RD-820 Unloader features:

RING-DRIVE: With the roller-chain ring drive, only one motor powers the machine.

AUTOMATIC LOWERING OPTION: A winch lowers the RD-820 automatically after each complete revolution.

POWER CUTTER: Spring tension keeps high-speed, self-sharpening blades tight to the silo wall to shave it clean.

TORQUE LIMITER: Ratchet-pin design protects the ring and drive system while working through conditions.

Affordable financing directly from Patz.
