THINK CONCRETE!!

When planning your storage for high-moisture shelled corn. The light-colored concrete walls protect your valuable grain from the heat like we experienced this summer.

Listen to what these farmers from Virginia say about their switch to a poured concrete silo for their corn storage:

"Even during the hottest summer in our memory, the shelled corn from our poured concrete silo has kept its bright yellow color and has not heated.

We have the best Hi-Moisture shelled corn ever."
Signed: Keith Wilson, Paul Wilson, Gerald Garber;
Cave View Farms, Inc., Weyers Cave Va.

"The more you know about silos, the better we look."
