SOIL COMMANDERS

NEW

The New Brillion Soil Commanders take Residue Management to the next generation of soil conservation efficiency.

The Soil Commanders are versatile tillage tools designed to meet the needs of the mid-size farmer who uses a 150-200 H.P. tractor. One of the keys to the machine's versatility is that it uses interchangeable shank legs and individually mounted disk assemblies instead of a disk gang. This makes possible a machine with disk assemblies on the front and rear of the frame with chisel plow or deep-ripper shanks on 15", 24", 27" or 30" spacings.
