| <input type="checkbox"/> Dekalb Genetics | <input type="checkbox"/> Agway |

STATE COLLEGE (Centre Co.)—The Pennsylvania Master Corn Growers Association (PMCGA) is pleased to announce continuing support for its Membership Incentive Program (MIP) that the association is conducting in conjunction with a number of cooperating Pennsylvania seed companies.

The MIP with seed corn company sponsorship will entitle any corn grower who plants at least five acres of corn to a free bag of seed corn (standard size) with a three-year membership in PMCGA/NCGA.

This program applies to all three-year memberships, new or renewal. To participate, simply complete the membership form and indicate the brand of seed corn you would like to try.

Remember the theme of our program is "Try Something New," so we hope you will use this opportunity to experiment

a bit and not just get a bag of free seed corn. You will receive a certificate for a free bag of seed from the company chosen from PMCGA.

You will make the ultimate decision about which hybrid to receive in consultation with the local seed corn dealer for the company you selected. PMCGA will send the names and addresses by brand chosen to the appropriate seed corn company's statewide contact person and they will contact you.

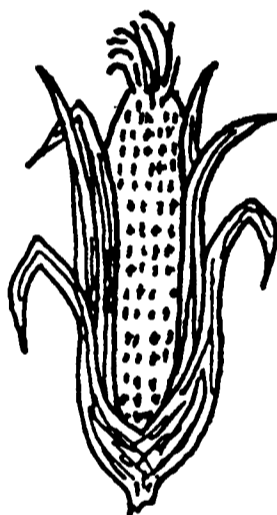

In addition to this incentive program, you'll be joining thousands of other growers across the country who are showing their support for the corn industry. Locally, you'll be supporting PMCGA's activities such as *Corn Talk*, our Corn Conference, and local corn promotion activities.

The PMCGA board of directors are very pleased with the support the seed industry in Pennsylvania has shown by supporting this initiative.

PENNSYLVANIA MASTER CORN GROWERS ASSOC., INC.

The **NEW LEADER** L3020

Heavy Duty LIME SPREADER

For more than 50 years, New Leader has aggressively met and exceeded market demand by producing the most dependable, adaptable and durable spreaders in the industry. The heavy-duty L-3020 spreader is a direct result of New Leader's unmatched experience in the agricultural equipment field.

Designed for high-volume applications of ag-lime and gypsum, the rugged and resilient L-3020 is also suitable for spreading fertilizer and hauling aggregate material. Equipped with an optional swinging rear endgate, the L-3020 can be quickly and efficiently converted into a controlled discharge, no-hoist dump system for stockpiling. The L-3020's standard 30-inch-wide conveyor system virtually eliminates the material bridging that's common with narrower conveyor spreaders. The versatile L-3020 broadcasts ag-lime at rates up to six tons per acre and fertilizer at rates as low as 150 pounds per acre.

Other Available Features:

- Complete body in 304 or 409 stainless steel
- Mounts on vehicles equipped with highway, semi or full flotation tires
- An optional ladder that attaches to either the left- or right-hand-side of the unit
- Optional heat- and petroleum-resistant conveyor belting available for transport and application of hot asphalt.

FUERST
F-L-E-X-I-B-L-E
TINE
HARROW

The perfect tool for ridge and minimum till

The Furerst harrow cleans ridge tops, creating excellent seedbed. Unique "Spreading Action" tines hug the soil at faster speeds to shred and evenly spread no-till stalks in the spring.

Dozens of uses:

The harrow used behind a disc or cultivator, incorporates herbicides in one pass. Used alone, it covers broadcasted seed, renovates, maintains pastures and more

The harrow/cart (an optional harrow carrier as shown) follows tight turns, has folding wings for easy transport. Harrow and cart are available in 16 to 42 ft widths
