"I planted MA9200 with Pioneer 3171 and MA9200 outyielded the Pioneer brand. The Mid-Atlantic Seeds hybrid was a higher quality product at a substantially lower cost. I was very pleased with the performance of this corn."
Steve Wilson, Parkton, MD.

Our corn hybrids deliver proven field performance in the Mid-Atlantic geographical area. We test and develop our hybrids in your fields! And they're winning in competitive test plots. Listen to what your neighbors are saying about Mid-Atlantic Seeds:

"I am very pleased with the Mid-Atlantic Seeds corn hybrids. The performance and growing were excellent. They were averaged 147 bu. per acre and I am very happy with this corn, especially considering the dry season we had. I couldn't have been more pleased."
Wayne Hunsinger, Gettysburg, PA

"MA9200 harvested 27.3 tons per acre. It outyielded 3 competitors hybrids by an average of 1.7 tons per acre. I was also very happy with MA9170 which averaged 147 bu. per acre. Mid-Atlantic Seeds proved to be a reliable, economical and very effective product."
Harold Smith My Ladys Manor, Monkton, MD

"I was very happy with the field performance of MA9050 and MA9000. They both had high yields and excellent standability. Next year I definitely plan on going back to Mid-Atlantic Seeds."
John Marsteller, Jr., Stewartstown, PA

"This year I planted Mid-Atlantic Seeds corn in all my fields and it performed exceptionally well. With Mid-Atlantic Seeds I got a high performance hybrid and great service, at an affordable price. I will absolutely be planting Mid-Atlantic Seeds next year."
Sam Gieseman, Cullen, VA

MA9050

- 105 DAYS RM
- EXCEPTIONAL HIGH YIELDING MODIFIED SINGLE CROSS
- FAST DRY DOWN
- TALL PLANT
- 24,000-28,000 PPA
- DEEP KERNELS, SMALL COB
- EXCELLENT CHOICE FOR SILAGE

MA9090

- 109 DAYS RM
- FLEX EAR TYPE
- HIGH YIELDING
- GOOD TEST WEIGHT
- 24,000-28,000 PPA
- HIGH STRESS TOLERANCE
- RESPONDS WELL TO VARIETY OF MAINTENANCE CONDITIONS

MA9120

- 112 DAYS RM
- TALL PLANT
- 23,000-28,000 PPA
- FAST DRY DOWN
- HIGH TEST WEIGHT
- VERSATILE HYBRID FOR GRAIN & SILAGE GROWERS
- DEEP KERNEL

MA9140

- WINNER 1994 BACS GRAIN VARIETY TRIALS, BERKS CO.
- 114 DAYS RM
- EXCELLENT PLANT HEALTH
- HIGH YIELDER
- EXCELLENT STAY GREEN
- GRAY LEAF SPOT TOLERANCE
- MEDIUM EAR PLACEMENT
- 22,000-26,000PPA

MA9170

- PLACED FOURTH 1994 BACS GRAIN VARIETY TRIALS, LANCASTER CO.
- 117 DAYS RM
- EXCELLENT DROUGHT TOLERANCE
- TALL SEMI-UP-RIGHT LEAFS
- 26,000-30,000 PPA
- HIGH YIELDING FOR BOTH GRAIN & SILAGE
- SUPERIOR STANDABILITY

MA9180

- 118 DAYS RM
- HIGH TEST WEIGHT
- GRAY LEAF SPOT TOLERANCE
- 25,000-28,000 PPA
- OUTSTANDING CHOICE FOR GRAIN & SILAGE
- SUPERIOR STANDABILITY
- ADAPTABLE TO WIDE RANGE OF SOIL TYPES

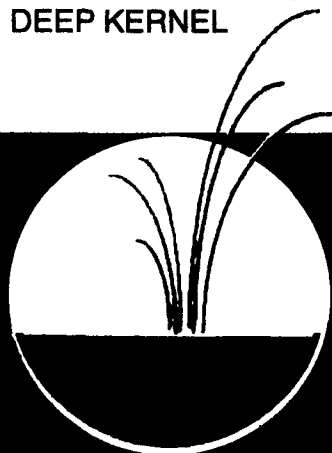

NEW MAX9181

- 118 DAYS RM
- TALL HYBRID
- HIGH EAR PLACEMENT
- FLEX EAR TYPE
- EXCELLENT SILAGE POTENTIAL
- EXPERIMENTAL - LIMITED AVAILABILITY
- 22,000-26,000 PPA
