**LEHIGH VALLEY FUTURES INC.**  
Commerce Plaza, Suite 249, 5000 Tilghman Street, Allentown, Pa 18104

The risk of loss in trading futures and options on futures can be substantial. Futures and options trading may not be suitable for everyone. You should carefully consider the risks in light of your financial condition in deciding whether to trade.

The unique Millcreek Row Mulcher eliminates all the hand labor for mulching.

**Finally, a practical way to apply organic mulch to row crops**

Organic mulch is the natural way to suppress weeds, help retain soil moisture, and improve soil conditions. Trouble is, hand mulching takes too much time and effort. Now the Millcreek Row Mulcher makes it easy and affordable to mulch berries, grapes, fruit trees, and other row crops. One operator can mulch an acre in just a couple hours depending on conditions.

**Spread A Variety of Materials, Including Lime**

You can spread all types of stemless flowable mulches, such as wood chips, sawdust, chopped bark, even compost, with plenty of clearance to avoid plant damage. Plus, the Millcreek Row Mulcher is ideal for banding lime and other materials requiring lighter applications. The optional metering gate gives you complete control of the coverage so you can tailor applications to best suit your cultivation practices. With the labor-saving versatility you get with the Millcreek Row Mulcher, you may even find new techniques to grow better crops.

**For Small Growers**

This may be the affordable machine you've been looking for to mulch berries, grapes, and other row crops. Think of the labor you'll save.

**For Commercial Growers**

Choose from 3.1, 4.5, and 6.8 cubic yard capacities. Or call to discuss your special requirements.

**One "Farm-Tough" Machine**

With our own farming background, we take great satisfaction in building affordable machines for growers like you who need reliable, trouble-free equipment to help increase production and keep costs down. That's just what the Millcreek Row Mulcher will do for you. Call today.
