Patz

T.M.R. Mixer

*Unique central spiral circulator
No bearings inside the mixer drum*

Fewer working parts make the Patz Tumble Mixer reliable (only 3 grease fittings).

As the drum rotates, the central spiral circulator moves feed to the back of the mixer. At the same time, the flitting bolted to the drum in a spiral design move the feed to the front as it mixes with a tumbling action.

- Four sizes
- High-strength, corrosion-resistant steel mixer drum
- Electronic scale
- Low-rate financing available.
