

# You ask You answer

This column is for readers who have questions but don't know whom to ask for answers.

"You Ask—You Answer" is for non-cooking questions. When a reader sends in a question, it will be printed in the paper. Readers who know the answer are asked to respond by mailing the answer, which will then be printed in the paper.

Questions and Answers to this column should be addressed to You Ask—You Answer, Lancaster Farming, P.O. Box 609, Ephrata, PA 17522. Attention: Lou Ann Good.

There's no need to send a SASE. If we receive an answer to your question, we will publish it as soon as possible.

**QUESTION** — Roland Kamoda from Monongahela writes that he heard that a corn cutter that slices through the kernel is sold in an Amish or Mennonite store in Lancaster County. He'd like the name of the store.

**QUESTION** - Roland Kamoda, Monongahela, wrote that a reader sent a folk remedy for arthritis that required one tablet of Certo dissolved in grape juice. He would like to know where to purchase Certo tablets.

**QUESTION** — Sandra Laughman, Hardin, Mo., wrote that she read about a woman who creates pickled fabrics. Sandra would like information on the procedure and ingredients to use.

**QUESTION** — Lisa Sparr, Upper Falls, Md., would like to know how to get the grates on a gas grill clean.

**QUESTION** — Lisa Sparr, Upper Falls, Md., would like to know where to purchase a flame tamer. It's used on the burner of a stove so that when cooking soups or stews for long periods, it will not burn on the bottom of the pot.

**QUESTION** — Kim Salvatore, Winslow Township, N.J.,

would like to purchase a Dept. 56 animated, snow dome music box called a "Childe's Pond." One of her twin sons broke her sister-in-law's music box and Kim wants to replace it. She is prepared to pay a fair price. Call her at (609) 567-3447.

**QUESTION** — A Millersburg reader would like an address for ordering candle making supplies.

**QUESTION** — A reader would like to know where to buy lye that is used in making homemade soup.

**QUESTION** — Lena Hoover, Shippensburg, would like to order wigs through the mail. She uses the wigs for doll's hair. The wigs should be inexpensive but good quality.

**QUESTION** — Frank Cerami, Jamison, wants to know where purchase concrete fence posts.

**QUESTION** — Barbara Fair, 2056 Garfield Rd., Mohrsville, Pa. 19541, writes that she is a stay-at-home farm wife with four small children. Her husband is always in the barn or the fields and she is busy with kids, house, and garden. She is lonely and would like to correspond with someone in similar circumstances.

**QUESTION** — Edward Clark, Frazer, would like to know where to get seeds for Dr. Martin lima pole beans.

**QUESTION** — Mrs. Alvin Brubaker, Denver, would like to know how to get rid of thousands and thousands of box elder bugs that are on the siding, porch, roof, walls, floors, beds, and windows of their house. She adds, please don't tell us to cut down our beautiful shade trees.

## Wool Election

FREEMPORT (Armstrong Co.) — Candace Burke of Burkes' Little Twenty Sheep Farm, Freeport, is the newly elected regional district 5 director for the National Natural Colored Wool Growers Sheep Breeders Association. The elections were held at the Virginia State Fair, Richmond, Va., after the National Natural Colored Sheep Show in September.

Region 5 consists of six states: Pennsylvania, West Virginia, North Carolina, Delaware, Maryland, and Virginia. Candace Burke will still be the western Pennsylvania representative, a position she has held for two years.

The Natural Colored Wool Growers Sheep Breeders Association is a national registry, with the goals to produce the best colored wool fleeces on the best structure sheep and lambs possible and to encourage good animal husbandry and good show ring ethics for the young and old.

### Water Quality An IMPORTANT Ingredient In Livestock Management

It's a fact! Contaminated water can have a costly effect on your livestock and poultry performance. Our years of experience plus hundreds of farm related treatment systems has proven the validity and practicality of correcting contaminated water.

After 6:00 PM

## CHIMTEK™

ADVANCED CHIMNEY TECHNOLOGY

**SAFER:** CHIMTEK is designed to withstand severe chimney fires without breaking or transmitting high temperatures to adjoining combustible materials.

**LESS CREOSOTE:** Wood smoke contains moisture (H<sub>2</sub>O). When the smoke comes into contact with a surface under approx. 250 degrees F the water will condense to a liquid. This liquid combined with other products in wood smoke will result in creosote. Creosote can be very dangerous when it ignites. The inside of a CHIMTEK chimney stays much warmer and greatly reduces the amount of creosote formation. In many cases CHIMTEK chimneys are completely clean after years of use.

**IMPROVES STOVE PERFORMANCE:** The draft produced by a chimney is what pulls oxygen into the fire for combustion. The three main factors affecting draft are the chimney's height, size and temperature. CHIMTEK contains a great amount of a very special insulating material that is not affected by moisture saturation and will not settle or deteriorate. Poor draft will result in poor combustion. Poor combustion will create more smoke. Smoke is wasted fuel. Newer EPA certified stoves are especially dependent on proper draft to perform properly.

**A SURE SOLUTION TO MASONRY CHIMNEY PROBLEMS:**

Outer casing of chimney; made of brick, stone, block, or other suitable masonry material.

**CHIMTEK INNER LINER:**

- Made of volcanic pumice and high-temperature refractory cements.
- Round shape provides even temperatures inside flue, and contributes to efficient flow of smoke and flue gases.
- Highly resistant to thermal shock.
- Even if cracks should occur, the round shape and Chimtek Secondary Liner prevent pieces from falling into chimney.
- The volcanic pumice in Chimtek liners adds considerable insulating value.

**CHIMTEK SECONDARY LINER:**

- Provides exceptional insulation to make chimney more efficient and reduce heat transfer to combustible materials.
- Provides structural support for inner liner.
- Will not absorb moisture or creosote.
