MANURE HAPPENS!

Badger's New Turbo Pit Pump is designed to handle it!

CALL FOR DEMO!

NEW Model BN500 Turbo Pit Pump!

The pump designed for the big, tough jobs!

- Here it is! The pit pump with the agitation capacity of 4 - 5,000 GPM. Here's a pit pump that is built farm tough to last year after year.
- The 6-blade impellor and a turbo flow pump inlet provides maximum cutting action and aggressive flow at maximum pressure.
- The lower bearing is designed with a 5-seal system and a totally enclosed oil-bath housing. A conveniently located reservoir, grease lines and fittings make it easy to maintain.
- The tapered upper nozzle is designed with a stainless steel ball pivot with a vertical range of 55 degrees to break up and blast through thick crust.
- The hydraulic control console features a 4-spool valve that controls all pump agitation requirements, putting all the major pump controls in the hands of the operator at one location.

AIR DIESEL

It can eliminate 40% of all your engine maintenance problems.

A Deutz AirDiesel is a true no-nonsense engine. There are no troublesome components such as hoses, fans and radiators associated with liquid-cooled engines. A Deutz is cooled by air and is engineered to save you up to 20% in fuel over other diesels. Over one million AirDiesels from 5 to 500 HP are working in all fields of application throughout the world.

KHD DEUTZ

Deutz distributors since 1955
