## SPRING LAWN FARM

Joe & Dave Garber  
Lancaster, PA

"We had been having trouble getting cows to peak out and hold over 100 lbs. of milk. Since we started following the AIM™ program, our average second calf heifers peaks are 108 lbs. with mature cows averaging 105 lbs. at peak. Our cows are consistently holding their peaks for 2-3 test days.

The service from Sensenig's Feed Mill has been outstanding and we are very pleased with the entire package. The AIM™ Milk Replacer, along with the Calf and Heifer Feeds have been a great addition to our program."
