LAPP'S BARN EQUIPMENT

CURTAIN SYSTEMS

Lapp's Curtain System

Lapp's insulated curtains can help you make your farm more efficient. You can save up to 30% on your fuel/energy costs while maintaining a comfortable climate enables livestock to feed into live weight more efficiently, the curtain makes your barn warmer in winter and cooler in summer.

Our curtains are available in both 4 and 6 ply, both of which are faced with a impervious white vinyl layer which faces the elements. With all these benefits, the average payback is two years!

A lower cost alternative to the insulated curtains, are Lapp's single layer curtains. You still get all the benefits of using a high quality curtain to keep the elements outside and being able to lower the curtain to naturally ventilate in your barn.

Patz

T.M.R. Mixer

*Unique central spiral circulator
 No bearings inside the mixer drum*

Fewer working parts make the Patz Tumble Mixer reliable (only 3 grease fittings).

As the drum rotates, the central spiral circulator moves feed to the back of the mixer. At the same time, the flitting bolted to the drum in a spiral design move the feed to the front as it mixes with a tumbling action.

- Four sizes
- High-strength, corrosion-resistant steel mixer drum
- Electronic scale
- Low-rate financing available.
