JUMBO BALES

A Case International 8580 large rectangular baler makes JUMBO bales - up to 2,000 pounds.

Buy at Old Price Savings

It compresses hay equivalent to about 40 conventional bales into a single high-density package. The high-end capacity and performance of the 8580 means you can push these big bales through the machine all day — every day. That's a lot of hay!

And it's quality hay, too. The centerline design handles the crop gently to preserve nutritious leaves. The bales are uniformly shaped for efficient handling and shipping.

The 8580 also has a full list of standard features. Low-profile pickup, pre-packed chamber, massive gearbox, heavy-duty components throughout, electronic monitoring, double-tie knotters and low maintenance. And it's simple to operate. The Case International 8590 is a JUMBO value, too.

THE IMPROVED DEFINITION OF WORKING CLASS

These Tractors Go Anywhere There's Work To Be Done

If you have a lot of jobs to do, the 3200/4200 Series tractors are right for you. Loading, baling, spraying, mowing — these are reliable tractors that match your requirements.

You can equip them to work just the way you want for field or mowing operations. A choice of adjustable axles and rims gives you the right stance for specialty or row-crop applications. Transmission offerings include an optional creeper-speed or push-button powershift for added versatility. And high-capacity PTOs provide strength for your toughest auger and haying chores.

On the Category II 3-pt. hitch, separate levers give you precise control over the hitch draft, raise, drop and position levels for fieldwork. And on all models except the 3220, an optional cab will keep you fresh on those long workdays.
