**Binkley & Hurst Bros. For Quality Rock Pickers & Rakes NOW! REMOVE ROCKS BEFORE FALL SEEDING**

**Rake & Pick The Easy Way!**

**Grated Hopper Bottom**  
We use spring steel straps in the hopper instead of using milder steel. The hopper is engineered to bounce back in shape.

**Hydraulic Drive**  
The most popular drive on rock pickers is hydraulic which is standard on the 6000. We have incorporated a relief valve to take away the shock when disengaging the drive.

**Flotation Tires**  
The 16.5Lx16.1 flotation tires are standard equipment and are a must to reduce soil compaction.

**Reel Assembly**  
We are using the same reel as the proven Super Picker 6800. The three paddle reel has a large diameter, hard surfaced teeth and heavy duty paddles.

**Swing Pole**  
The manual swing pole is easy to maneuver in both working or transport position.

**Solid Shaft Grill Tines with Replaceable Grill Tips.**  
This modern grill is easier to maintain, has longer life giving you less down time. The unique grill provides five feet of clean shifting and virtually jamless performance.

may be the picker you'll need!
