JUMBO BALES

A Case International 8580 large rectangular baler makes JUMBO bales - up to 2,000 pounds. It compresses hay equivalent to about 40 conventional bales into a single high density package. The high end capacity and performance of the 8580 means you can push these big bales through the machine all day - every day. That's a lot of hay! And it's quality hay, too. The center line design handles the crop gently to preserve nutritious leaves. The bales are uniformly shaped for efficient handling and shipping. The 8580 also has a full list of standard features. Low profile pickup pre packer chamber massive gearbox heavy duty components throughout electronic monitoring double tie knotters and low maintenance. And it's simple to operate. The Case International 8580 is a JUMBO value too.
