Frozen silage? No problem!

For frozen silage and hard-packed haylage, the Patz cutter-and-claw gathering chain outperforms augers. This time-proven chain with its chain-saw cutting action cuts out frozen silage aggressively. Shouldn't your next unloader have a gathering chain?

Consider these Model RD-820 Unloader features:

RING-DRIVE: With the roller-chain ring drive, only one motor powers the machine.

AUTOMATIC LOWERING OPTION: A winch lowers the RD-820 automatically after each complete revolution.

POWER CUTTER: Spring tension keeps high-speed, self-sharpening blades tight to the silo wall to shave it clean.

TORQUE LIMITER: Ratchet-pin design protects the ring and drive system while working through conditions.

Affordable financing directly from Patz.
