KELDERMAN AIR RIDE

Adding a Kelderman Air Ride Conversion system to your present suspension will result in a two stage suspension system. This is not to be confused with adding an Air bag mounted above the axle. Allows adding extra spring leaves to increase load rating and still maintain Air-Ride comfort.

The bolt on basic package utilizes an air stem mounted in a convenient location to add or remove air from the system.

Optional 12 volt compressor allows changing air pressure setting on the go. Currently available for front and rear suspension in Dodge Series 250 & 350 trucks. Available soon for Dodge Dakota models.

Also available for some Ford, Chevy and GMC truck models. Special orders available for most motor homes. This option will smooth out the ride on those rough-road fishing/camping trips.

BEARLINK Replacement Top Link Improves The Performance Of Your Three Point Tractor!

The BEARLINK's seven inch adjustment stroke moves with hydraulic power, automatically locking in place wherever you want it...saving you trips back behind the tractor...making hooking implements or taking them off faster and safer...BEARLINK owners tell of shortening the hydraulic link while turning around at the end of fields saving damage to equipment and making in-field angle adjustments without stopping...

It's Your Turn TO Profit!
List \$669.00

SALE PRICE **\$589¹⁸**

Others report hookups and unhookups without the usual hassles of freeing up the threads and all the usual manual labor associated with their mechanical top link. Every dollar you save in labor costs, time, and damage to equipment or crops... goes directly to your bottom line.

- Tired of climbing down from your tractor just to switch hoses?
- Save time, money and steps!
- Now you control two circuits with the flip of a switch!
- Stay safe - Keep high-pressure hydraulics out of your cab.
- Universal - Fits all tractors
- Large Capacity - 1.5 gpm

REMOTE MASTER DOES IT ALL!

The REMOTE MASTER lets you use one outlet to control two sets of hoses by moving a three-position toggle switch from circuit A to circuit B, then operating your existing tractor lever for directional control
