Back Every Sale!

BEFORE YOU BUY YOUR NEXT NEW TRACTOR, ASK AN OWNER.

There are more than 50,000 Case IH MAGNUM™ tractors working fields and farms around the world. And with over 65 million hours of rugged fieldwork behind them, they've proven what a difference durability, reliability and performance can make.

You'll feel that difference in the 7200 Series MAGNUM tractors, ranging from 130 to 215 PTO hp. At the heart of every MAGNUM is its 8.3 L

diesel engine — the definition of pure agricultural power. Not to mention the standard 18-speed full-powershift transmission that gives you complete control of 18 forward and four reverse speeds, as well as an optional creeper transmission that adds six forward and two reverse speeds.

Yet with all that performance, there is no shortage of comfort. The MAGNUM tractor cab means highly efficient

luxury. From the ergonomically designed seat to the smart layout of the controls, you're surrounded with features that make it easy to put in a full day's work.

If you're looking for a proven tractor with all the assets you need to maximize productivity, be sure to test drive a MAGNUM tractor. But don't just take our word for it.

ASK AN OWNER.

THE TRACTOR IS RED. THE SERVICE IS GOLDEN.

And Comes From Binkley & Hurst, Your Case IH Dealer Who Knows Magnum Tractors And Has Sold Many With A Service Staff To Back Up Every Sale!

Product Highlights

The MAGNUM™ 7200 Series sets a new industry standard in farm power technology, customer convenience, quality and value. This is the most innovative, customer-oriented and productive series of tractors since the MAGNUM was originally introduced in 1987. The 7240 MAGNUM offers many important features, such as:

- 195 PTO horsepower (145 kW) generated by a Case IH turbocharged 505 cubic inch (8.3 L) engine for excellent torque and lugging ability at 2,200 rpm.
- Ventilated and sculptured side panels for distinct family styling. The panels also provide 40% increased air flow for additional cooling capacity and improved turning radius.
- Silent Guardian II cab with outstanding visibility, standard or deluxe seat option, improved equipment monitor mounting and air conditioning with environmentally safe HFC 134A refrigerant.
- Intelligence Center II provides complete information to the operator regarding tractor operation with an automatic shutdown feature to protect your investment and continuously available engine hour meter display.
- Precise in-cab remote valve flow control adjustment with 180 rotation.

- Electronic hitch control with "Hitch Command" that allows the operator to fine-tune hitch operation to the application and raise or lower the hitch with a flip of the switch.
- 18 speed forward, four speed reverse, full powershift transmission is standard. Operator can shift on the go under full power from first through 18th gears. Shuttle shifting from forward to reverse can also be made under load without clutching or reduced shift lever effort when the clutch is depressed. This reduces forward/reverse cycle time.
- The optional MFD axle can be engaged on the go and includes automatic MFD disengagement feature in brake-assisted turns to provide easier turning on the ends of the field.
- Optional six-speed powershift creeper transmission is ideal for PTO operations where slow ground speeds are needed.
- A four-inch bar axle.
- Optional dual fender-mounted hitch controls for easier hook-up and adjustment.

See Binkley & Hurst Today For A Year End Deal!

The Case International 8312 disc mower conditioner just keeps on cutting — no matter what it encounters. Tangled undergrowth, rodent mounds and hills or heavy hay are no match for the heat-treated high-speed rotary discs at the heart of the 8312.

A center pivot tongue lets you cut a full 12 foot swath in either direction and maneuver around obstacles. Lay down a quick drying swath or fluffy windrow and, depending on your crop conditioning rolls can be quickly adjusted for optimum drying.

If continuous cutting with a center pivot machine is important to you, stop in and see the Case International 8312.

Case IH Drills For Seeding In Stock

Plain Type With Soybean And Grass Seed Attachment, And Press Wheels Equipped With Fertilizer Attachment, Press Wheels, Grass Seeder, And Soybean Attachment

There's nothing more important to a crop than early even emergence. To get it, you need accurate, even seeding. The 5300 has earned a reputation for its seeding precision, a function of its exclusive feed cup design and dependable disk openers. And, to improve placement of seed, the opener drawbars are heavier than on previous models. Press wheels and opener bearings are heavier for long life operation.

Along with accuracy, the 5300 gives you fast, high capacity seeding, so you spend less time refilling hoppers.

We have One New 5300 Drill 16x7 With Fertilizer Attachment, Press Wheels, Double Disk Openers, And Seed View Cups, for Extra Savings Purchase Before Year End
