NE Chicken Pts 1&2

FEBRUARY 7, 1996

Trucklot buying interest was mixed and more selective than usual. Offerings were tight on high quality smaller sized whole breasts, otherwise adequate. Other parts were generally in good balance to satisfy the limited dealer needs. Retail and distributive movement was still slow in developing, but most traders expected an increase in demand for the weekend. The market tone was mostly steady with underlying sentiment cautious.

Delmarva Broiler

FEBRUARY 7, 1996

Movement of ready-to-cook whole birds was sufficient to keep the light offerings of 3 pound and smaller sizes well cleared; 3.5 pound and heavier weights were adequate for the mostly moderate demand. Live supplies ranged moderate to heavy; weights were desirable to heavy. Processing schedules were generally heavy. Less than trucklot asking prices were unchanged at 51 to 62 cents. Trade sentiment was fully steady to firm. In the parts complex, bone-in breasts were generally held with confidence. Boneless skinless breasts were irregularly distributed, but adequate overall. Leg items and wings were in generally good balance.
