

### Introducing New Roundup Ultra.

Roundup herbicide has been transformed using advanced TransSorb technology, into Roundup Ultra—a dramatically improved herbicide with added value for growers.

### Roundup Ultra Is Rainfast.

Roundup Ultra's TransSorb technology enables the Roundup Ultra herbicide to be rainfast in 15 minutes after application. With that amount of rain, you can now apply Roundup Ultra with confidence.

### Roundup Ultra Is Complete And Ready-To-Use.

Just add water to new Roundup Ultra and you're ready to apply it. There's no need to dispense, contain, buffer, or add additives of any kind. Yet, new Roundup Ultra retains all the tank-mix versatility of traditional Roundup.

### Roundup Ultra Can Lower Your Cost Acre.

Since it requires no additives, new Roundup Ultra will save most growers money on every acre. And you'll save time, because with Roundup Ultra there's no longer a need to wait for visible signs of control, then re-apply, tillage, annual weeds or clearing. Ask for Roundup Ultra's future technology, you can't get it any other way.

## Technology You Can Count On.

Roundup Ultra
