- 2. Cash discounts on selected models**

Discover Quality... Discover Value...

The cornerstone of our product offering is the world's largest selling line of self-propelled forage harvesters—the Jaguar.

Next, Rollant round balers make dense bales that stand up and stay weather-tight, resist spoilage, and fit nearly any size operation. It's no wonder CLAAS is North America's leading importer of round balers.

Our world class Quadrant large square balers and Markant conventional size square balers offer the capacity to produce tight bales that keep the air out and minimize nutrient loss.

CLAAS® hay tools will meet your needs and exceed your expectations. Volto rotary tedders reduce field time. Spread cut crops over an area up to 24 ft. wide, accelerate dry down and make hay in a day. High speed Corto rotary rakes gently sweep crops into windrows for easier baling. Liner twin rotor rakes clear a swath up to 24 ft. wide.

More also includes CLAAS's reputation for low maintenance, long-life, and service after the sale. You can expect more from CLAAS because we have more to give. Call now and see just how much more CLAAS has to give.
